

# Evaluation of the Summer Semester Courses Has Been Launched

Anonymous electronic evaluation of courses take place from 10 to 29 May. The results including the comments will be released in the middle of June.

Students of BA and follow-up MA studies evaluate their courses in each semester, always near the end or after its duration. The evaluation can be carried out in a unique anonymous electronic application.

At the beginning of the evaluation, all students receive click-through access by email that leads directly into the application where the courses, which they enrolled in SIS, will show up. They may be evaluated fully or partially and either all at once or they can be completed later – unfinished evaluations can be saved for later completion. You may also log in to the evaluation on [hodnoceni.ff.cuni.cz](http://hodnoceni.ff.cuni.cz). You may switch to English in the upper left corner.
